AUTOMATION & AGENTS · SYDNEY · DISCOVERY INTAKE · ONE PAIN POINT IN, A TAILORED PLAN OUT · AUGUST 2026

DISCOVERY INTAKE · THE COMPLETE PICTURE · AAA-INT-003 · AUGUST 2026 · FOUNDER-DIRECT · SYDNEY

One pain point in. *A tailored plan out.*

This is the long version of the sixty-second matcher on the site — for owners who would rather write it down once, properly. Fill in what applies, skip what doesn't. Rough numbers and “not sure” are useful too: they show me where the gaps are. Bullets beat essays.

WHAT YOU GET BACK · WITHIN 48 HOURS · FREE, NO OBLIGATION

(a) A written first insight on your actual situation · **(b)** a scoped first build — the smallest useful thing worth doing, with its price · **(c)** your Baseline Sheet, section 09 turned into the one-page scoreboard we would both work to · and **(d)** an honest “this is / isn't a fit” call. If it isn't a fit, you will be told directly.

Before you start — two minutes on the site answers most questions and makes the call sharper:

SECTION 01 · THE PAIN POINT

THE MAIN QUESTION

Q01 · Mention your pain point — and in detail, what you want solved.

The thing that costs you sleep, hours, or money. Context, examples, numbers — the more detail, the sharper the plan that comes back.

100% privacy & NDA commitment — share freely. Everything here stays strictly confidential, and a mutual NDA is signed on request before you send anything sensitive. **Ask for the sample NDA and engagement terms** — you see both before you commit to anything.

SCOPE, ENGAGEMENT & PAYMENT · CLEAR FROM DAY ONE · AAA-RULE-001

Work is delivered in weekly pieces. An undelivered piece is never invoiced. Stop at the end of any week and keep everything built — source code included.

“Delivered” means built, working and handed over as agreed in writing — payment is due on handover, not after a testing period, and never contingent on results. The pilot carries a second gate on top: one agent live on your real data by day 10, watched working before you decide, every cent back by day 30. Retainers and Traction bill monthly, month to month. **Results are measured openly against your own baseline — that is transparency, not a payment trigger.**

Partner, board, accountant, or no-one

SECTION 09 · THE BASELINE · NUMBERS & EXPECTATIONS

4 QUESTIONS

Every AAA engagement is measured against your numbers, from your systems, agreed up front and reviewed together. This section is that agreement’s raw material. Rough is fine; “don’t know” is a finding too.

Q32 · Your baseline — up to five numbers that matter, as they stand today.

Examples: hours a week on admin · minutes to answer a new lead · dollars overdue right now · quotes sent versus won per month · follow-ups missed

METRIC THAT MATTERS	TODAY’S NUMBER	WHERE THAT NUMBER LIVES	WHERE YOU WANT IT IN 90 DAYS
<i>e.g. hours/wk on invoicing & chasing</i>	<i>9 hrs</i>	<i>Xero + my calendar</i>	<i>under 2 hrs</i>

METRIC THAT MATTERS	TODAY'S NUMBER	WHERE THAT NUMBER LIVES	WHERE YOU WANT IT IN 90 DAYS
Q33 · Which systems could AAA read, view-only, to measure that baseline honestly?			
CRM, accounting, inbox, phone logs, booking system — measurement needs a source, not a guess			
Q34 · Who on your side signs off that a number is a number?			
You, your bookkeeper, your ops person — one name avoids month-three debates			
Q35 · What would make this feel like a failure at day 90, even if some things improved?			
The honest version. Knowing your deal-breaker up front protects both of us.			
WHY THIS SECTION EXISTS · THE HONESTY CLAUSE I will not promise you a result — nobody can do that honestly. What I will do is take the risk off you. We measure your baseline from your own systems in week one, agree the targets in writing, and sit down with the same numbers at every checkpoint. If they don't move, you will see it as clearly as I do. Measurement keeps us both honest; it is not a payment lever. Nothing is invoiced until it is delivered, and no fee in any AAA engagement is contingent on an outcome, in either direction.			
SECTION 10 · WHAT AAA COULD BUILD FOR YOU			TICK ANYTHING
Every price below is published at aaa.artigellence.com . Tick what interests you — the plan that comes back will be shaped around what you tick and what you wrote in Q01.

LOGISTICS

Q36 · Your name, business and best contact — email and mobile

Q37 · Best day and time to call you

e.g. Tuesday or Thursday mornings

Q38 · Prefer to meet in person? Suggested day, time and area

ONCE YOU’RE DONE

Send it back by email — raj@artigellence.com — or WhatsApp [+61 469 313 323](tel:+61469313323). Within 48 hours you get the written first insight, the scoped first build with its price, your Baseline Sheet, and an honest fit call.

One small ask: when I email or message you, a quick “got it” keeps things moving — and I will always do the same, acknowledging anything you send within 24 hours.

Before you send it — the three things *worth knowing*

WHAT	WHY IT MATTERS TO YOU
Nothing is invoiced until it is delivered	Work ships in weekly pieces; an undelivered piece is never invoiced. Stop at the end of any week and keep everything built, source code included. You are never exposed for more than one undelivered week.
You own what is built	Agents, prompts, credentials, documentation, code, accounts, content and data — yours from the day they are delivered, and they keep running if you stop.
Ten client slots, deliberately	One operator, AI-augmented, founder-direct on every engagement. The person who scopes your work is the person who builds it — which is also why the calendar sometimes says no, and why a straight “not a fit” is a real answer here.
