INVESTOR BRIEF · CONFIDENTIAL · EARLY-STAGE · SYDNEY · AUGUST 2026

INVESTOR BRIEF · CONFIDENTIAL · AUGUST 2026 · SYDNEY

The AI workforce for Australia’s 2.5 million small businesses — *sold the only way SMEs buy: nothing invoiced until it is delivered.*

AAA by Artigellence builds production-grade AI agents that run the admin drowning Australian SME owners — quoting, invoicing, reception, reconciliation — sitting **above** the tools they already use (Xero, MYOB, ServiceM8, Cliniko, LEAP), never replacing them. Consulting cashflow today; productised industry agent-packs next.

THE PROBLEM — QUANTIFIED & NATIONAL · THIRD-PARTY RESEARCH, NOT AAA OUTCOMES

14 HRS/WK	A\$30K/YR	76%	2.8×
lost to manual admin per manager · Dext / ServiceNow 2025	average cost of late payments per SME · GoCardless 2025	of AU SMEs have no AI strategy · National AI Centre 2025	faster growth for AI-using SMEs · MYOB 2026

THE MODEL — PRICED PER PIECE, PAID ON DELIVERY

Phase 0 — pilot, one agent live on real data by day 10	A\$4,500
Agents — each, minimum four	A\$3,000
Retainer — Lite / Full, month to month	A\$1,750–3,500/mo
Traction — the growth engine, monthly	A\$750–3,000/mo
Tractus — self-serve, free front door	A\$29/mo
Standard Year-1 client value	A\$56,500

All incl GST. Clients own everything built, source code included — no lock-in. API and run-costs pass through at cost, never marked up.

THE WEDGE — RISK REMOVED, NOT PROMISED

SME owners do not buy AI promises. **AAA’s rule: work is delivered in weekly pieces, an undelivered piece is never invoiced, and the client can stop at the end of any week and keep everything built.** The pilot adds a second gate on top — watched working on the client’s real data by day 10, every cent back by day 30. It converts the sceptical majority that competitors selling

WHY THIS SCALES BEYOND CONSULTING

- **Repeatable IP, not hours.** Every engagement hardens reusable industry agent-packs — trades, clinics, accounting, legal, food distribution. Build once, deploy many.
- **Solo-operator economics.** Founder-delivered with AI leverage: minimal fixed cost, services margin funding product development, not burning capital on overheads.
- **Distribution that compounds.** Accountants, bookkeepers and integrators sit on hundreds of SMEs each; the referral tier turns them into a recurring channel.
- **Two revenue shapes.** Delivery revenue from agents and retainers; self-serve subscription revenue from Tractus, at near-zero cost per additional user.
- **Model-agnostic architecture.** Agents sit on abstraction layers — switching providers is hours, not rebuilds. No platform dependency.

THE MOAT

- **The AU stack.** The major labs now ship SME workflows built for a US toolchain. Cliniko, Halaxy, MYOB, ServiceM8, Tradify, simPRO, LEAP, PEXA are not on those roadmaps — and the labs’ own framing concedes SMEs do not integrate these systems themselves.
- **25 years of regulated consulting** — four industries, thirty-eight countries — applied to AI delivery.

upfront retainers cannot reach, and it costs nothing when the work actually lands.

TRACTION — EARLY-STAGE, HONESTLY STATED

- Live platform, AI concierge and self-serve matcher shipped — aaa.artigellence.com
- Industry verticals live with dedicated pages and a 12-industry matcher
- **Several paid engagements underway** across multiple Australian SME industries, including a signed multi-month term
- Referral channel live — A\$500 per referred client reaching the 30-day milestone
- Second product line shipped: Tractus, a self-serve subscription with a free front door

- **Delivery discipline as the product.** Falsifiable, sourced claims only; every price public; no fee contingent on an outcome in either direction.
- **Australian-compliance-aware builds** (Privacy Act, Spam Act, AHPRA-adjacent workflows) — where offshore agencies stumble.

The unit maths. One Standard Year-1 client = **A\$56,500**. Capacity, not demand, is the constraint — the practice is deliberately capped at ten concurrent client slots at founder-delivered quality. **100 Standard clients = A\$5.65M revenue;** reaching it requires productised packs plus delivery capacity beyond the founder. That is precisely what this raise builds. Illustrative arithmetic at published prices, not a forecast.

ONE ENGINE · FOUR DOORS — A LADDER FROM A\$29 TO A\$56,500

01 · TRACTUS — SELF-SERVE Free → A\$29/ mo Event memory engine: pitch QR free forever; then one price for memory and tracked follow-up. Zero marginal cost per user; the widest top of funnel.	02 · FINDABLE — ENTRY A\$595-1,950 AI-visibility and email-deliverability audits and fixes. Runs as step one of Traction, and credits 100% toward Phase 0 — the cold-entry door.	03 · TRACTION — RECURRING A\$750-3,000/ mo Weekly content, SEO and AEO, warmed outbound, every link tracked. Recurring distribution revenue, or built and handed over at A\$13,500-19,500.	04 · AGENTS — THE CORE A\$4,500 → A\$56,500 Pilot → agents at A\$3,000 each → retainer. Standard Year-1 is the anchor, incl. Founder's Bonus (A\$7,000 value). Plus bespoke: apps, portals, custom systems.
---	---	---	--

Every door feeds the same engine, and the full stack is public — every service, every price, no gated quote: aaa.artigellence.com

THE ASK · FOUNDING ROUND · EXPRESSIONS OF INTEREST

AAA is opening conversations with a **small circle of strategic investors** — ideally operators who know the Australian SME market. **Use of funds:** productise the industry agent-packs into deployable IP · stand up delivery capacity beyond the founder · build out Tractus as self-serve product · fund the partner channel and AEO growth engine. **Terms discussed founder-direct.** Full data room, unit economics and delivery evidence available under mutual NDA. The first conversation costs fifteen minutes.

THE FOUNDER-OPERATOR — WHY THIS FOUNDER, THIS MARKET

Raj Singh — Founder & Operator, Sydney. **25+ years self-employed across four industries and thirty-eight countries**, including two decades of regulated migration consulting — compliance-heavy delivery sold on trust to exactly the settled, multi-business owners AAA serves today. That network is the warm pipeline.

The platform is its own proof: the entire AAA stack — live site, AI concierge, industry verticals, self-serve matcher, Tractus and the delivery tooling — was designed, built and shipped by one operator using the same AI leverage AAA sells. Solo-operator input, full-team output; every engagement founder-direct.
